First-half net sales	2023	2022	var 2023/2022
France	67,001	69,423	-3.5%
ASIA	16,951	14,433	17.4%
TOTAL	83,952	83,856	+0.1%

Net sales

- Sales in the first half performed well despite an inflationary environment leading to changes in consumer behaviour.
- The business volume generated by the opening of new customer accounts and the organic development of the U10 offering absorbed the current downturn in the market.

News and Outlook

- In the first few months of the year, U10 finalised the promotional campaign aimed at reducing overstocks from 2022.
- After this break designed to focus on the quality and balance of its inventories, U10 is now calmly focused on improving profitability and staying on course with its development.
